2. Certification of the above listed personnel of the Special Projects Office are required to insure essential control and security of the operation in the development phase inasmuch as the volume and flow of traffic dealing in this manner are increasing. A decentralized control within AFCEH should give way to an integrated register.

3. The personnel identified for the Strategic Air Command require certification in advance of receipt of materials for the purpose of essential planning and development of the operation, procurement and installation of equipments, and for construction modifications to meet minimum security standards.
